BRIGHT FUTURE

Filing for bankruptcy forced me to think about certain choices I had made in the past. Although I had been laid off, I had also made decisions that didn't work for my current situation. The advice provided by Miller & Miller have helped me feel confident about my decision to file and laid out a solid foundation for a secure financial future.

- Cheryl, Saukville

From start to finish, everyone was very caring and encouraging to me. I was very impressed with the process and my experience with this firm. I was not made to feel ashamed or guilty. As a matter of fact, I feel the best I have felt in three years. I know that financial stability can't be achieved without first overcoming feelings of grief, shame, and fear. My attorneys certainly made me feel a lot better about filing and I would recommend Miller & Miller to anyone. I truly thank Miller & Miller for a great experience that made me feel much better, not only about filing but about myself.

- Barbara, Milwaukee

STABILITY

I came to Miller & Miller
feeling depressed and
anxious. After I talked
with Attorney Gauthier
about my options, I left
the office happy and
stress free.
- Gregory, West Bend

I filed two years ago and I am at a point that I don't worry about money or bills. I get excited seeing my credit score go up each month. Just this past month, my score reached 720!

Another person's arm and hand are visible on the right side of the frame, reaching out to shake the man's hand. The background is a bright, out-of-focus indoor setting.

THE RIGHT PLAN

My attorney was honest and spoke in terms I was able to understand – not legalese. I felt so much better after coming to Miller & Miller, because I had a plan and most of all, I had hope. I would not want to go through this process alone, and I feel good knowing it is going to be done right the first time.

- Michelle, Wind Lake

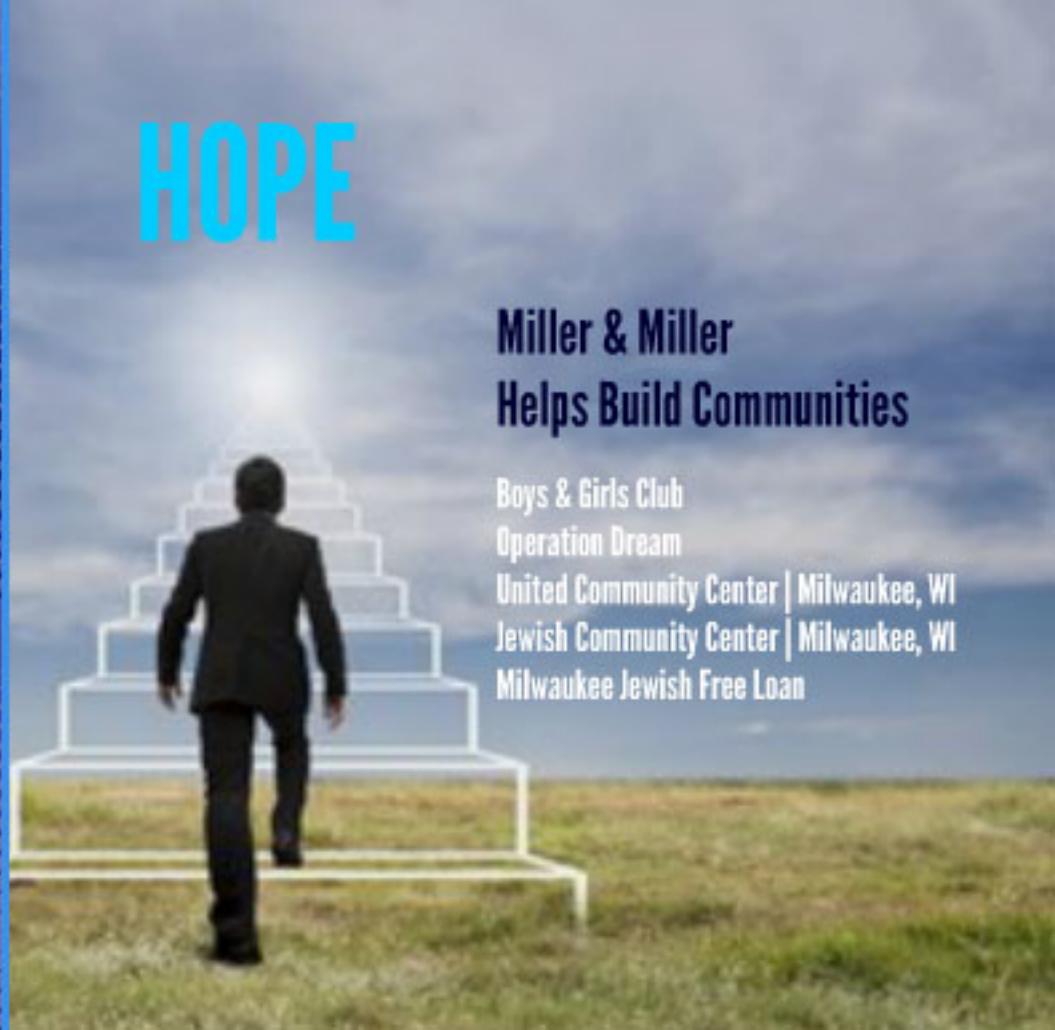

Miller Guides Clients Through Bankruptcy Maze

Most clients are fearful and anxious, but Miller “gives them a path to the future that calms their fears. People come to us at their lowest point and we do our magic, which stops the creditors from calling. We tell them bankruptcy doesn’t need to be an adversarial process and we try to make it as easy as possible for the client.”

Credit Restoration Expert Dave Ramsey and Attorney James Miller

I had a 72 year old client come in a month ago – creditors were hounding her every day. She didn't need a bankruptcy, just needed a solution to the constant calls. We were able to get involved and now she doesn't get those calls anymore, just the ones she wants from her friends and family.

- Attorney James Miller

I had a client that had over \$100,000 in medical bills. We eliminated the medical debt so she could focus on her health. We helped her get credit score to 720 and now, two years later, she has recovered and is purchasing her dream home.
- Attorney Brett Boyer

I recently helped a client who had tried to modify their mortgage several times on their own. The loan servicer had switched so many times that even when they thought they were approved, things would change when a new company name appeared on the letterhead. Through the Bankruptcy Court's Mortgage Modification Mediation program and a Chapter 13 plan we filed, this client is now staying in his home, with his family, at a monthly payment he is able to afford. - Adam Port, Legal Assistant

OUR PLEDGE

At Miller & Miller you will get the attention, compassion and respect you deserve. We will find a solution that will work for you now and into the future. This is our guarantee to you.
